

August 10, 2018

The regularly scheduled levee board meeting, next Wednesday, August 15 should provide answers to last month's question concerning the funding for tasks 3 & 4.

The answers should make us aware of whether or not the arrangement between parish and Neel Shaeffer is the real deal or should the situation be questioned. Add to that the fact that through dogged persistence of Tom Thompson's efforts to get the reports from the Army Corps of Engineers released, should it take another ? months to complete this study? We have to represent ourselves. We can't let anything slide.

Please contact those on your list to remind them:

Towers Bldg., Old Spanish Trail, Slidell
6:00 P.M.
Wednesday, August 15
I hope to see you there.

Bonnie
